### FARMERS SIZE UP HUGHES AS "PRETTY GOOD FELLOW"

Fargo, N. D.—Charles E. Hughes campaigned for the first time among the sturdy farmers of the eastern part of North Dakota and left behind him the reputation of being a "pretty good fellow."

He was forced to undergo a critical scrutiny before the verdict was given.

Mr. Hughes preached the doctrines of government efficiency, Americanism, tariff as protection to the farmers and preparedness, and in each instance won applause, despite the fact that the farmers are not the strongest advocates of the last named issue. They cheered for preparedness the loudest when Mr. Hughes told them that it meant not militarism, but ability to uphold national honor. As they cheered for Mr. Hughes one broad shouldered old farmer said, "It's because there's something about him that makes you believe he's telling the truth."
